

PLS 480 Warranty

- 3 year manufacturer's warranty from date of purchase
- Non-warranty exchange-trade in program
- If your PLS laser cannot be covered under our warranty because of severe drops-abuse, battery corrosion-leakage, or old age; don't worry.
- We have a unique exchange program that allows existing PLS customers to trade in their old, well used PLS laser for a brand new unit at a deep discount below the cost of a new PLS unit.
- We call it the "ETN" program and you can work with PLS directly or through your local authorized PLS dealer. ETN tools are new PLS tools - not reconditioned and carry a one year warranty.
